

## HOW TO UPLOAD FILES TO APP INVENTOR

1. Download the particular “zip” file (e.g. GPA.zip) from [www.misternolfi.com](http://www.misternolfi.com) and save on your computer. **DO NOT EXTRACT FILES from the “zip” file!**
2. From the “My Projects” page in App Inventor, open the “More Actions” menu and select “Upload Source.” Browse for the “zip” file that you want to upload and click “OK.”
